WE WELCOME YOU AND YOUR PARTICIPATION!

HISTORY

The organization was founded in 1973 by 14 local enthusiastic artists. Current membership is in excess of 130 members. Our Associate-Members, Benefactors, Founders, Patrons, & Sponsors is comprised of a group of about 30 art supporters who share our commitment to the visual arts.

MISSION STATEMENT

Our mission is simply to promote the visual fine arts culture in Clay County, Northeast Florida, and the communities we serve. We strive to provide ongoing opportunities for the development and enrichment of artist members as well as interested non-members through educational programs and skill improving techniques. Throughout the year, we present exhibitions and events geared toward advancing community awareness and appreciation of the talents of the visual artists in and around the area.

THANK YOU ALL FOR YOUR CONTINUED SUPPORT!
